

# My Internship experience

Andoniu Daniel 5ºAI

# Introduction

- I made my school internship at Eeprom. Its head office is located in Rosà (via Mazzini 91).
- Is a small office with just one employee and the boss.
- A little reception, the boss's office and the main room and of course the bathroom.

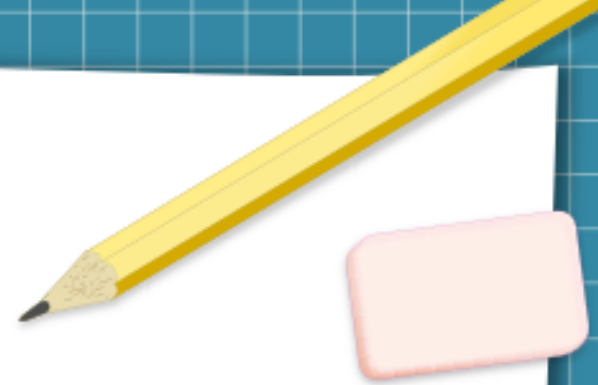

# Type of Job

- Mainly I installed Windows 10 in PCs.
- I assembled some Pcs.
- Used TeamViewer to help the customers.
- Sometimes the boss took me to the companies to resolve their problems.

# Safety

The risks were near to 0. That's because we were in an office with no serious hazards.

When we went to the customers risks were really low too.

You could cut yourself with paper or some lightweight boxes could fall on you but it was nothing serious.

# Personal Considerations

A yellow pencil with a pink eraser is positioned in the top right corner of the slide, pointing towards the title.

- It was really interesting to work there.
- I did a lot compared with the expertations.
- It was fun, that's because I worked with a classmate.
- I felt satisfied with this experience.
- In the future i'd like to do this type of job, maybe not forever but for a while.
